PDF forms and SharePoint are better together

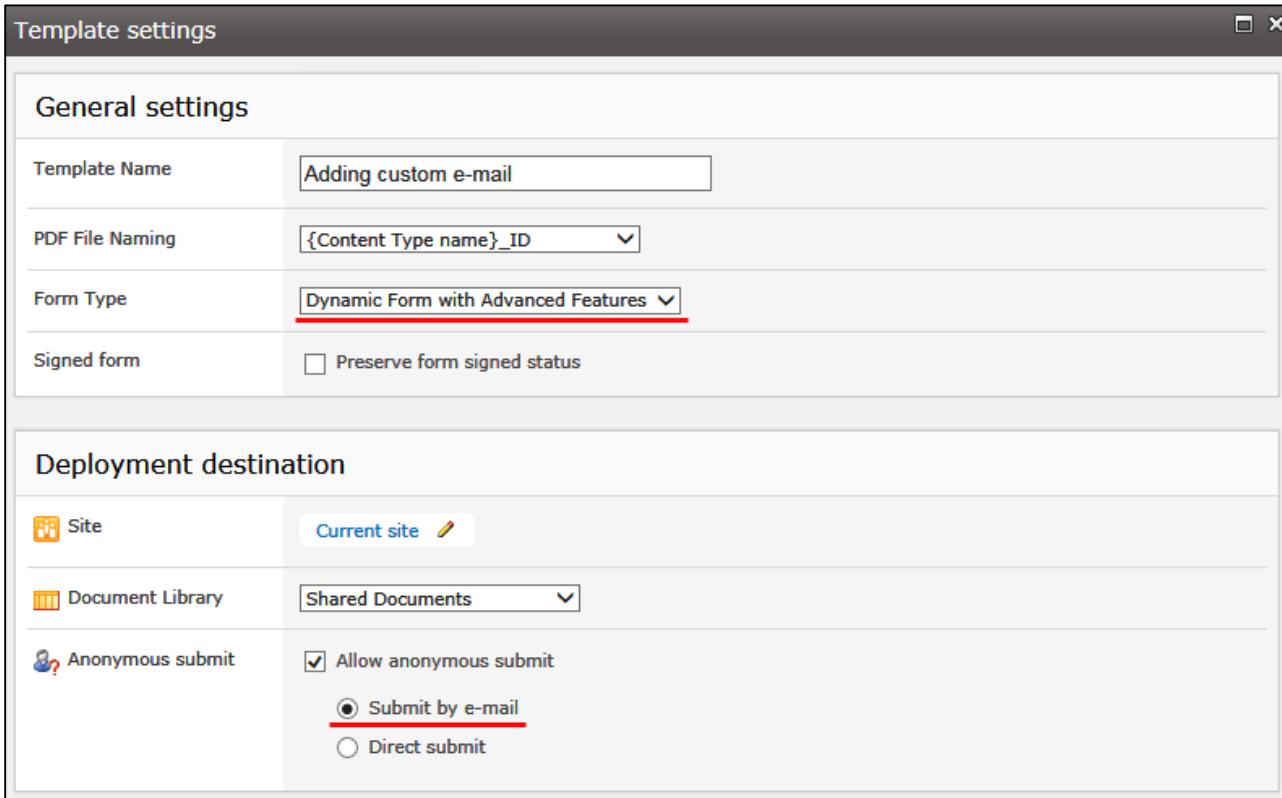

## Adding custom e-mail address and CC to anonymous form Submit button

Product: PDF Share Forms Enterprise for SharePoint 2010

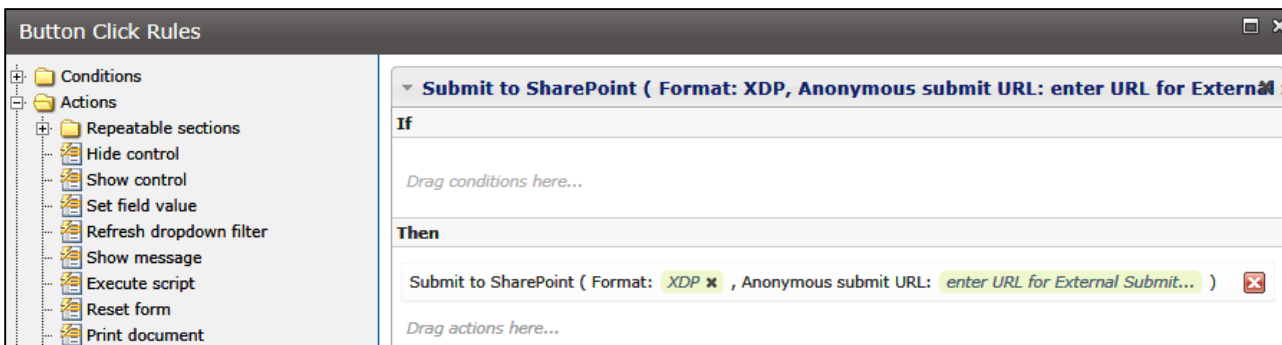

This guide describes steps to create form with button that will submit form to custom e-mail address.

**Step 1.** In **PDF Share Forms Designer**, open **PDF Form Tools** → **Home** → **Settings**. Navigate to Deployment destination and enable **Advanced Features** and **Anonymous Submit**. In order to use e-mail submission, select **Submit by e-mail**

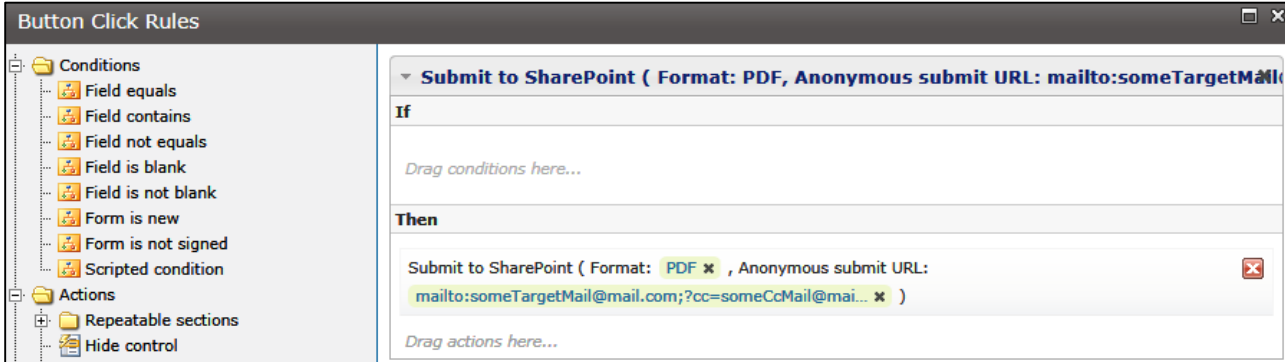

**Step 2.** Add button to a template. Select button and navigate to **Properties** → **Actions**, select and drag „**Submit to SharePoint**” action to control’s active area.

**Format:** PDF

**Anonymous submit URL :** mailto:someTargetMail@mail.com;?cc=someCcMail@mail.com;

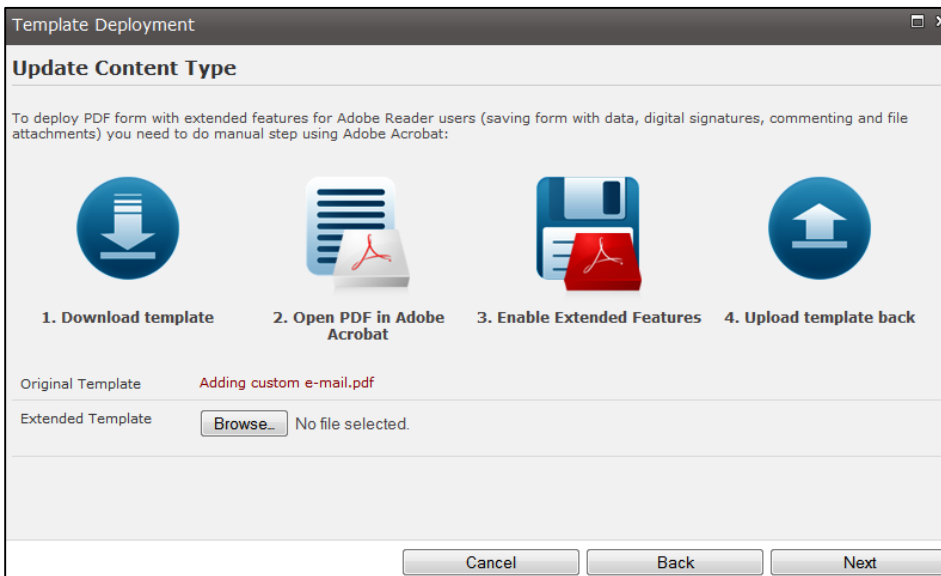

\* „mailto” serves as an indicator for e-mail receivers; „someTargetMail” is e-mail address of receiver; „someCcMail” is e-mail address of CC.

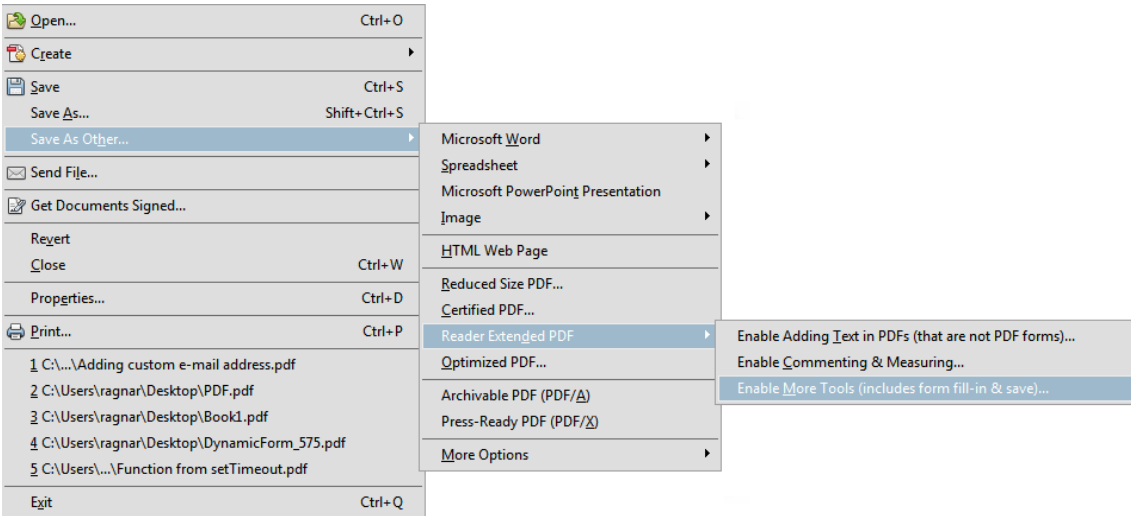

**Step 3.** Save the action by clicking **OK** and deploy the template

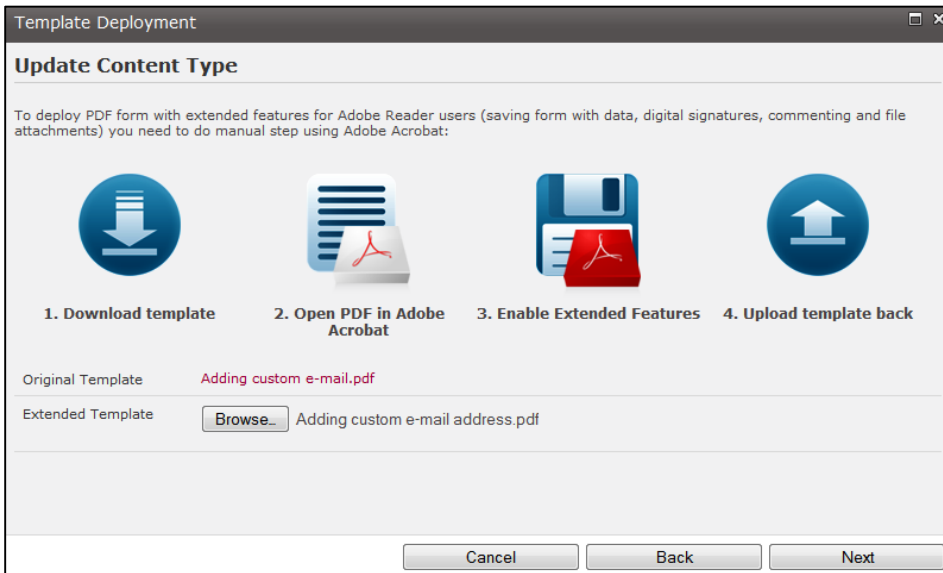

**Step 3.1** Download form

**Step 3.2** Open form In Adobe Acrobat and save form with advanced features enabled

**Step 3.3** Upload saved form to finish deployment

Steps 3. – 3.3 allows submitting form in PDF format.

**Step 4.** Once submission button is pressed, the system will generate an e-mail with „someTargetMai@mail.com” address in „To” section, „someCcMail@mail.com” address in „CC” section and submitted form as a file attachment
