

PDF SHARE FORMS

Online, Offline, OnDemand

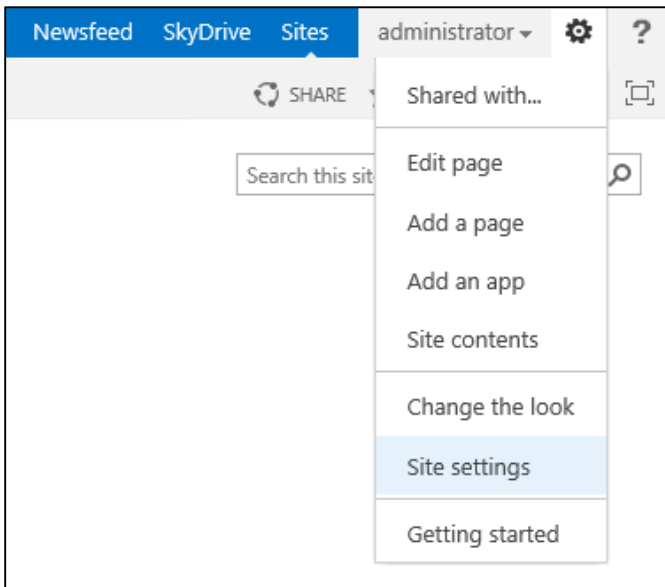

PDF forms and SharePoint are better together

Date field format

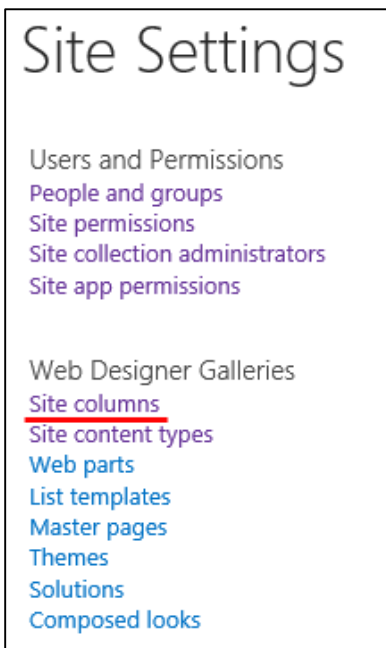

This guide describes how to force SharePoint to use date format that is specified in PDF Share Forms designer.

Column creation

Step 1. Navigate to **Settings** → **Site Settings**

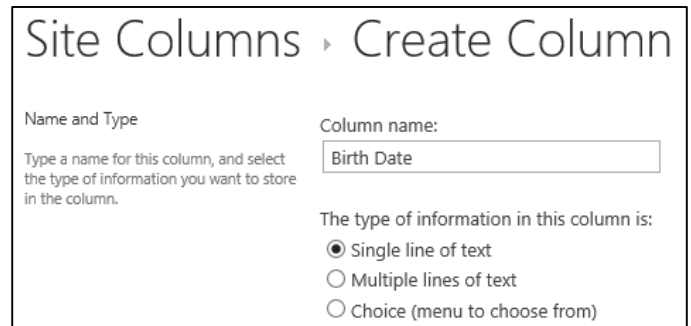

Step 2. Navigate to **Site columns**

Step 3. Click on **Create**

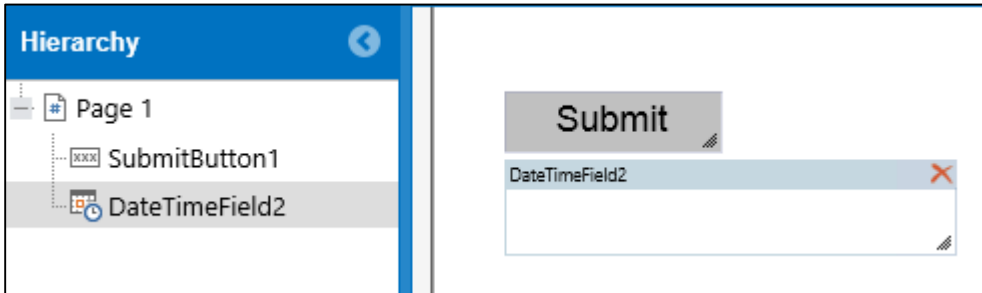

Step 4. Specify column name and choose **Single line of text** type for this column

Then save created column by clicking on **OK** button.

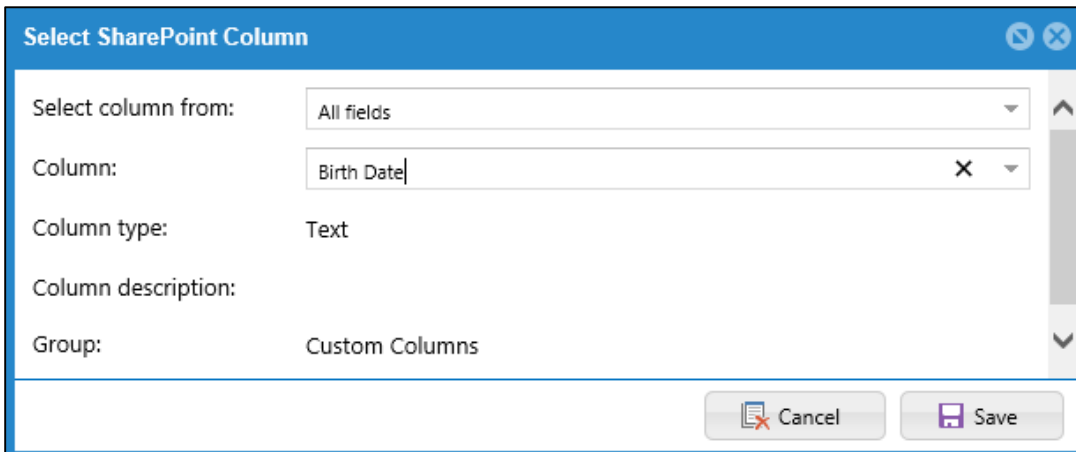

Template

Step 1. Prepare template

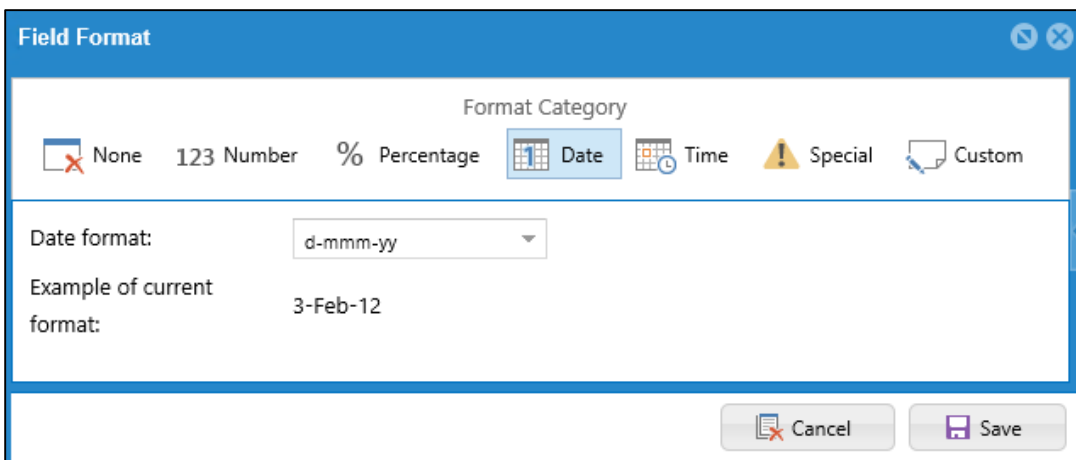

Template contains **Submit button** and **DateTimeField2**.

Step 2. Map **DateTimeField2** to column that was prepared previously. Choose **DateTimeField2** and navigate to **Data Field Properties** → **Linked SharePoint Column** → **Select from site columns**. Find there previously prepared column

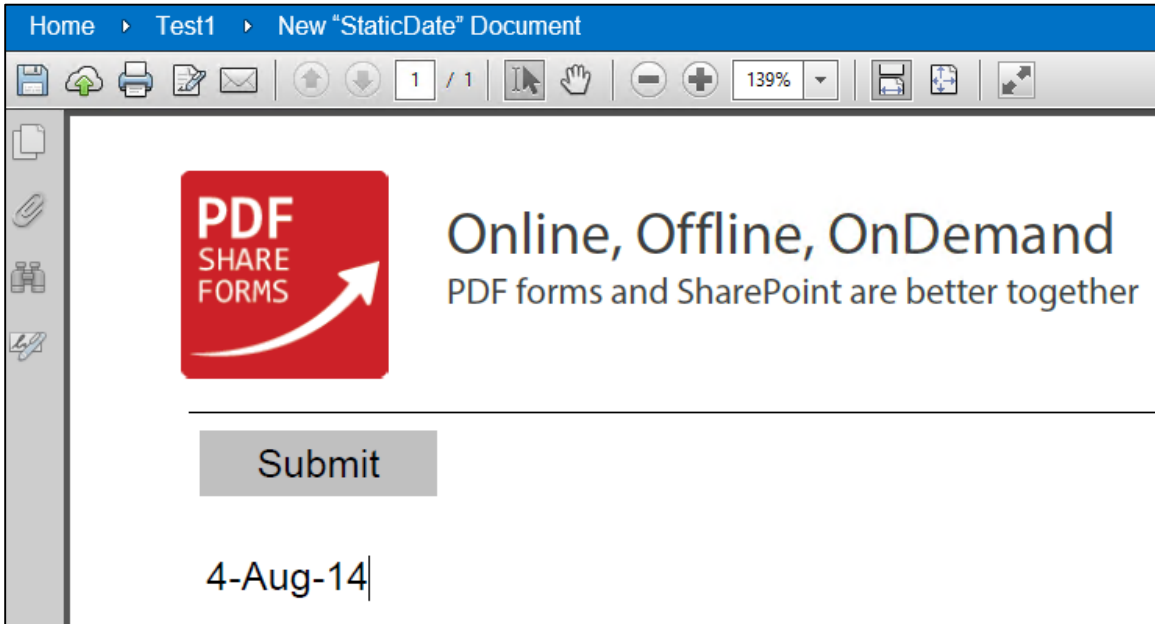

Step 3. Specify date format for **DattTimeField2**. Choose this field and navigate to **Data Field Properties** → **Format**. In the appeared window choose format and click **Save**

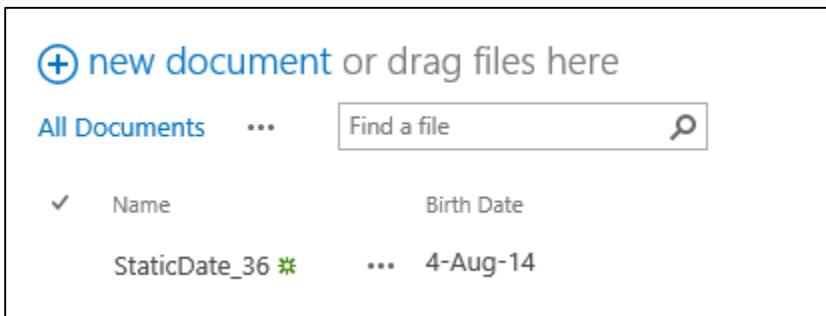

Step 4. Deploy template.

Step 5. Runtime

Add some date and submit form.

Step 6. Result

Specified date format appears in SharePoint.
