Find information about PDF Share Forms version

Contents

PDF Share Forms 2013	2
PDF Share Forms 2010 version 2.6.x.....	3
PDF Share Forms 2010 version 2.5.x.....	4

This guide describes how to find PDF Share Forms version information.

PDF Share Forms 2013

Step 1. Go to PDF SharePoint 2013 Central Administrator → Diagnostics

The screenshot shows the SharePoint Central Administrator interface. The left-hand navigation pane includes 'Upgrade and Migration', 'General Application Settings', 'Apps', 'Configuration Wizards', and 'PDF Share Forms'. The main content area is divided into several sections: 'Monitoring' (Review problems and solutions, Check job status), 'Security' (Manage the farm administrators group, Configure service accounts), 'General Application Settings' (Configure send to connections, Manage form templates, Configure content deployment paths and jobs), 'Configuration Wizards', 'Backup and Restore' (Perform a backup, Restore from a backup, Perform a site collection backup), 'Upgrade and Migration' (Convert farm license type, Check product and patch installation status, Check upgrade status), 'Apps' (Manage App Catalog, Manage App Licenses, Monitor Apps), and 'PDF Share Forms' (License, Diagnostics, Gateway Settings, Scripting Settings).

Step 2. There will be information about version:

The screenshot shows the 'PDF Share Forms - Diagnostics' page. It features a navigation pane on the left with categories like 'Central Administration', 'Application Management', 'System Settings', 'Monitoring', 'Backup and Restore', 'Security', 'Upgrade and Migration', 'General Application Settings', 'Apps', and 'Configuration Wizards'. The main content area contains the following information:

- Diagnostic Timer Jobs will collect information about PDF Share Forms component versions in your SharePoint deployment.
- Diagnostic Timer Jobs Status enables analysis and faster troubleshooting in case of unexpected issues.
- Server: SP2013SRV | Role: Web Front-End
- Timer Service status: Online
- PDFShareForms.Enterprise.dll | Version: 3.0.1.2470 | From date: 2/3/2014 6:35:48 AM
- PDFShareForms.Designer.dll | Version: 3.0.4.3640 | From date: 2/3/2014 6:35:48 AM
- Timer job started on 2/3/2014 6:35:31 AM ...

At the bottom, there are three buttons: 'Start Jobs', 'Refresh Status', and 'Delete Jobs'.

PDF Share Forms 2010 version 2.6.x

Step 1. Go to SharePoint 2010 Central Administrator → PDF Forms Settings → Licenses:

The screenshot shows the SharePoint 2010 Central Administration console. On the left is a navigation pane with 'Central Administration' selected. The main area displays several administrative categories:

- Application Management:** Manage web applications, Create site collections, Manage service applications, Manage content databases.
- Monitoring:** Review problems and solutions, Check job status, View Web Analytics reports.
- Security:** Manage the farm administrators group, Configure service accounts.
- General Application Settings:** Configure send to connections, Configure content deployment paths and jobs, Manage form templates.
- Configuration Wizards:**
- System Settings:** Manage servers in this farm, Manage services on server, Manage farm features, Configure alternate access mappings.
- Backup and Restore:** Perform a backup, Restore from a backup, Perform a site collection backup.
- Upgrade and Migration:** Convert farm license type, Check product and patch installation status, Check upgrade status.
- PDF Forms Settings:** Licenses, Web Application activation, Global settings.

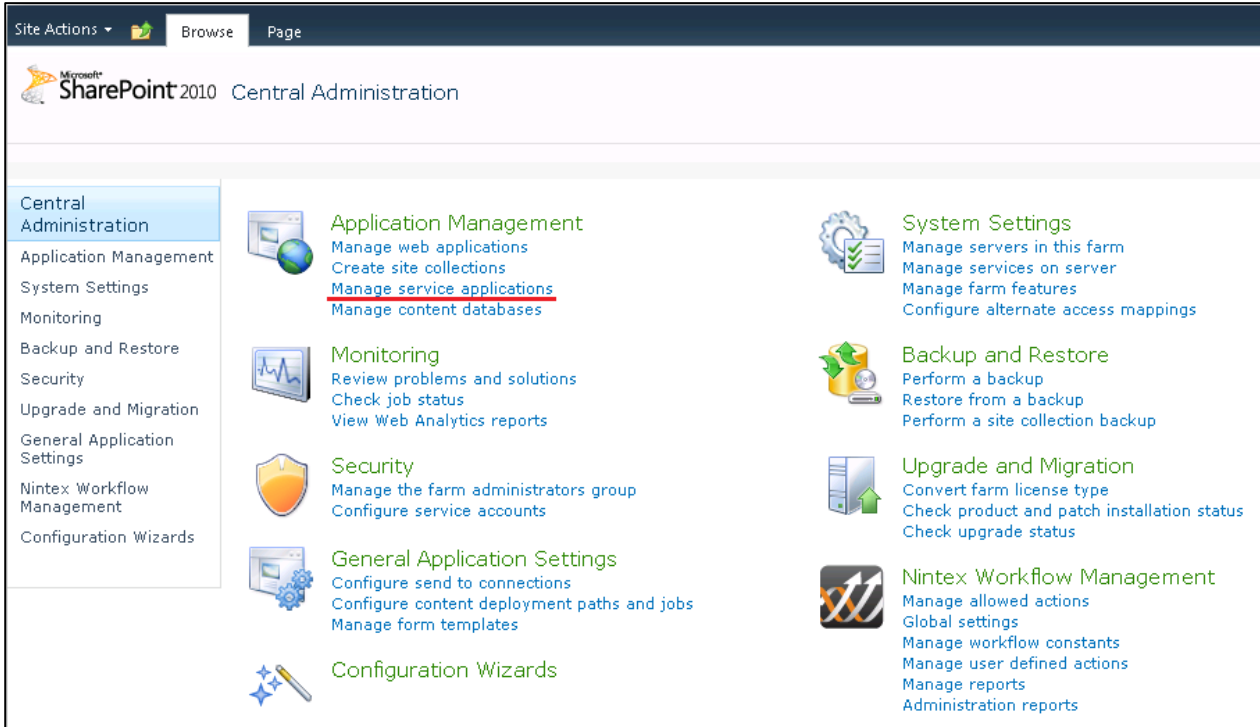

Step 2. There will be information about version:

The screenshot shows the 'PDF Share Forms Licensing' page in the SharePoint 2010 Central Administration console. The breadcrumb trail is: Central Administration > PDF Share Forms Administration > PDF Share Forms Licensing. The page content is as follows:

<ul style="list-style-type: none"> Central Administration Application Management System Settings Monitoring 	<p>Current server info</p>	<p>Installed components:</p> <ul style="list-style-type: none"> PDFForms.Designer: 2.6.2.4669 PDFForms.Services: 2.6.2.4669 <p>Current Farm ID: {7a1bf7d7-2562-46e5-a82c-9b153beaded3}</p>
---	-----------------------------------	---

PDF Share Forms 2010 version 2.5.x

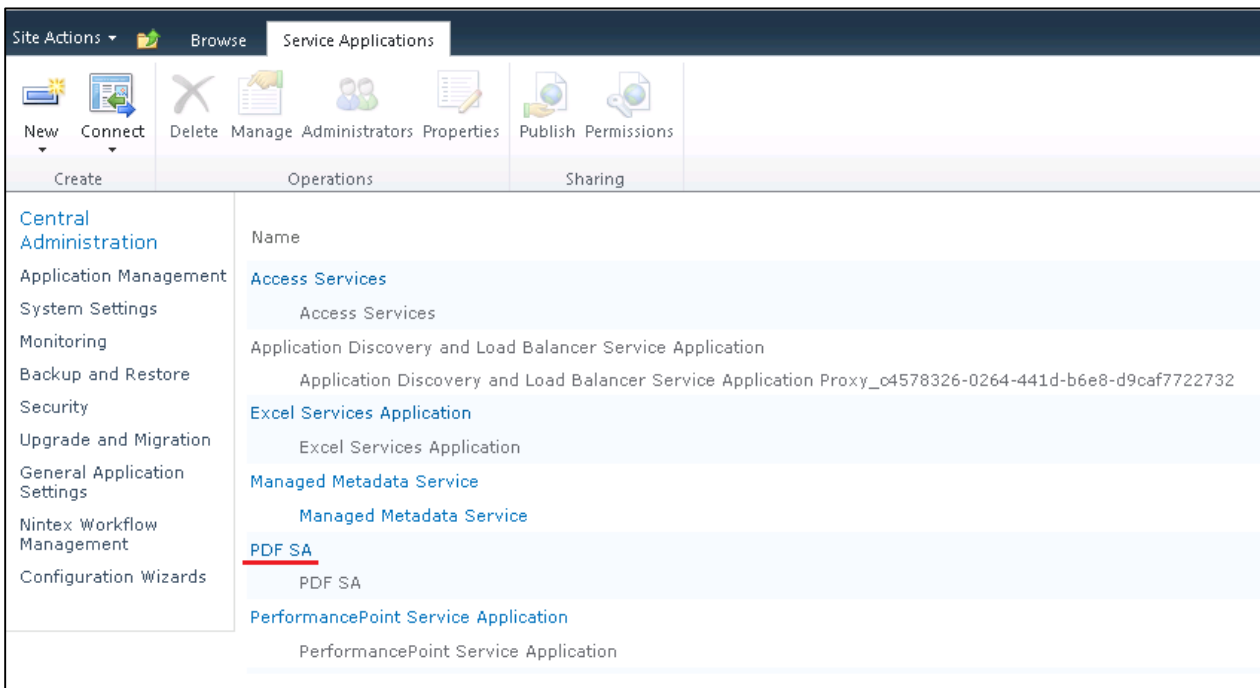

Step 1. Go to SharePoint 2010 Central Administrator → Manage service applications:

The screenshot shows the SharePoint 2010 Central Administration console. The left-hand navigation pane is expanded to 'Central Administration'. The main content area displays several management categories:

- Application Management:** Manage web applications, Create site collections, Manage service applications, Manage content databases.
- Monitoring:** Review problems and solutions, Check job status, View Web Analytics reports.
- Security:** Manage the farm administrators group, Configure service accounts.
- General Application Settings:** Configure send to connections, Configure content deployment paths and jobs, Manage form templates.
- Configuration Wizards:**
- System Settings:** Manage servers in this farm, Manage services on server, Manage farm features, Configure alternate access mappings.
- Backup and Restore:** Perform a backup, Restore from a backup, Perform a site collection backup.
- Upgrade and Migration:** Convert farm license type, Check product and patch installation status, Check upgrade status.
- Nintex Workflow Management:** Manage allowed actions, Global settings, Manage workflow constants, Manage user defined actions, Manage reports, Administration reports.

Step 2. Go to PDF Service Application (PDF SA):

The screenshot shows the 'Service Applications' page in the SharePoint 2010 Central Administration console. The top navigation bar includes 'New', 'Connect', 'Delete', 'Manage', 'Administrators', 'Properties', 'Publish', and 'Permissions'. The main content area is a table listing installed service applications:

Name
Access Services Access Services
Application Discovery and Load Balancer Service Application
